

EliteCare Quick Reference Formulary

This formulary is not inclusive nor does it guarantee coverage. It is an abbreviated list of Pharmacy and Therapeutics Committee approved drugs that may be prescribed. This document is subject to change.

Reading the Drug List

Generic medications are listed in all lower case letters; brand name medications are listed in all upper case letters. Each drug product is associated with a coverage tier, shown to the right of each drug product.

		Relative cost to member
Tier 1	Formulary generic products	\$
Tier 2	Formulary Brand Products	\$\$
Tier 3	Non-Preferred Formulary Products	\$\$\$\$
NC	Not-Covered	

Cases where drug products are followed by parentheses indicate that the entry relates to a certain dosage form, e.g. ESTRACE (vaginal cream), or more than one form of the drug, e.g. ZOMIG (ZMT).

All newly approved drugs on the market will initially NOT be covered, pending further review by the Navitus P&T Committee.
