Reading the Drug List

Generic medications are listed in all lower case letters; brand name medications are listed in all upper case letters. Each drug product is associated with a coverage tier, shown to the right of each drug product.

		Relative cost to member
Tier 1	Formulary generic products	\$
Tier 2	Formulary Brand Products	\$\$
Tier 3	Non-Preferred Formulary Products	\$\$\$\$

Cases where drug products are followed by parentheses indicate that the entry relates to a certain dosage form, e.g. ESTRACE (vaginal cream), or more than one form of the drug, e.g. ZOMIG (ZMT).
