

# Does your Workers' Comp Plan struggle to control PHARMACY BENEFIT COSTS?

EHO works with its clients to gain greater cost control while supporting better outcomes to get employees back to health safely.

## An Experienced PBM for Workers' Compensation

EHO understands how to manage prescription costs related to an on-the-job injury while focusing on the needs of the employee and their timely recovery. EHO's goal is aligned with the Workers' Comp client — to provide the safest and most appropriate treatment for the member. The team at EHO strives to build a relationship with each client by promising to be transparent on pricing, provide one-on-one evaluation of your benefit plan design, and develop tools to monitor and support members. Throughout the benefit management process, EHO performs continuous review of the client's plan for cost-saving opportunities.

In the face of the current opioid crisis, EHO has partnered with Sure Med Compliance, the industry leader in opioid prescribing compliance, offering in-network providers a tool that helps ensure only patients that truly need opioids receive them and only for as long as needed.

### DRUG UTILIZATION AND MANAGEMENT:

During benefit design setup, EHO sets standards for high-risk, high-cost claims. Early intervention is key to avoiding misuse and overutilization.

- Custom formularies for Workers' Comp
- Notifications when spend, drug or dose exceeds plan limits
- Opioid risk mitigation programs

### ROBUST, CLOUD-BASED PLATFORM:

EHO utilizes its internal PBM360™ claims processing platform to adjudicate pharmacy claims for its clients.

- Automated claims adjudication
- Detailed reporting dashboard
- Access to individual patient prescription history and current transaction data
- Real-time authorizations

### EXCEPTIONAL CUSTOMER SERVICE:

By taking the time to get to know clients and their benefit design, EHO provides ongoing, unparalleled support to address questions or concerns.

- 24/7 US-based, live help desk
- Dedicated team of Account Management Representatives and Pharmacists

### NATIONAL PHARMACY NETWORK:

EHO has its own, contracted national pharmacy network including major pharmacy chains, such as CVS and Walgreens.

- More than 65,000 pharmacy chains and independent pharmacies
- Convenient access for injured employees

# Rx Benefits Evolve – Our Technology Adapts

EHO understands that every group has specific needs when it comes to serving the member's health requirements and the group's financial goals.

## Flexible, Agile Benefit Design Customization

At EHO, all benefit programs are customized to fit the client's needs. All administrative, claims processing, and technical solutions are performed in-house. Prescription claims are processed with proprietary systems and software applications in EHO's cloud-based PBM360™ platform.
